Family Record of the Jordan Family
and the Jordan Family

PREFACE

We conceived the idea of writing the family history of the families included in this pamphlet some years ago, but did not get active until some seven years ago, when we began to collect data for this historical sketch, not realizing the stupendous amount of work and time it required.

We have visited old burying grounds, interviewed old citizens, searched old histories, to compile the history found in this small pamphlet. We have compared these with other histories and have found them as correct as any we have been able to find.

To all who have so gladly helped us in securing this history, and lightened our undertaking, we are most grateful.

In conclusion, I will say, writing this family history has been a labor of love—love for those who have lived, and a love for those who may come after us.

Respectfully,

MRS. HATTIE JORDAN

January 27, 1938.

We find in the Elbert County Records filed in Elberton, Ga., that Absalam Jordan and his wife, Mary, lived in Elbert County. We don't know who his wife was before their marriage. He mentions only three children in his will on October 8, 1792. They were George Walton, Joshua and Thomas Jordan. His will was recorded July 25, 1798. Don't know where they died nor where they were buried. We believe he was the forefather of the Jordans in Elbert and Franklin Counties. The land Lottery of 1827 gives Jeshua Jordan, as a soldier in the War of 1812. He was assigned a tract of land in Pickards District, in Bibbs County, Ga., as payment for his services in the war. It was not shown whether he moved to the assigned land or whether he traded it for lands elsewhere. We believe this Jeshua Jordan was the husband of Beady White and the father of the following named children.

THEORY OF THE EARTH

There is a general theory of the earth which is based on the following principles:

- 1. The earth is a sphere.
- 2. The earth is composed of a solid core and a liquid outer layer.
- 3. The earth is covered by a thin layer of water.
- 4. The earth is covered by a thin layer of air.
- 5. The earth is covered by a thin layer of soil.
